

Hi,

My name is Gwen Cauthren, I have a home in Discovery Bay on the delta. We bought our home in 1983 after the Peripheral Canal was voted down by the people of California. We could not imagine that a similar insane idea would come up again in our lifetime. The Twin Tunnel idea is just another way for southern California to get our water to water the desert down there. This is completely unacceptable. I want to reiterate the following:

Do not make dual conveyance, the Delta tunnels, a promoted option or preferred alternative at this time. Instead, do the comprehensive review and analysis required by the Delta Reform Act and such other things as a benefit-cost analysis before declaring the Tunnels or anything else to be the promoted option and preferred alternative. We are asking for you to think first, act later. Why is there a rush for approval for a project without Federal permits, and without a financial plan?

Gwen Cauthren
